

The Couta Group Pty Ltd supplies a range of products to customers under the Gas Pex™, Water Pex™, Chill Pex™ and Heat Pex™ brands. All products are compliant with Australian Regulations and independently certified to respective Australian Standards, Watermark and Gas regulations.

The Gas Pex™ piping system fully complies with, and has been independently certified to, all requirements of AS 4176:1994, AS 4176.8:2010 and Technical Specification ATS 5200.478 that apply for macro composite pipe systems for gas in Australia. The Water Pex™ Pex/Al/Pex multilayer piping system fully complies with, and has been independently certified to, the requirements of AS 4176.2:2010 and AS 4176.3:2010. The Water Pex™ Pex-b piping system fully complies with, and has been independently certified to, the requirements of AS 2492:2007. The Heat Pex™ Pex-b piping system fully complies with, and has been independently certified to, the requirements of NBR 15939-1:2011.

The Couta Group Pty Ltd offers a 25 year warranty on its Gas Pex™, Water Pex™, Chill Pex™ and Heat Pex™ systems and is backed by a products and public liability insurance policy to the value of AUD\$20,000,000. The policy covers claims made anywhere in Australia or New Zealand for personal injury or property damage caused by faulty product.

This warranty is conditional upon:

- The Tradespersons installing Couta Group systems having the appropriate regulatory licenses and having been trained and certified by the Couta Group in the correct installation techniques for the systems.
- The systems being installed in accordance with National Gas and Water Plumbing codes such as AS3500 and AS5601 or others that may apply.
- Any system component failure NOT being removed from the installation until inspection by a representative of The Couta Group.

This warranty covers Couta Group systems. The warranty is void where the installer does not use Couta Group fittings and pipe together.

Gavin Shaw  
Managing Director
